Desktop Studio Monitor Stand with Angle Adjust

Owner's Manual

Thank you for choosing Auray.

Auray's Desktop Studio Monitor Stands with Angle Adjust are the ideal way to isolate your studio monitors on your desk and position them for better sound. Angle your studio monitors upward or downward with angle degrees of 5°, 10°, 13°, and 15°. This allows you to customize your setup for the best listening experience. Rubber pads and feet help to isolate your monitor's sound and minimize rumble and vibrations, as well as keep the stand and monitor in place. Solid metal construction provides a monitor base that will last through many recording sessions.
